

PUMPING AND FINISHING SERVICES FOR FINISHED FLOOR CONTRACTORS

A third-generation family-owned business, Kent Companies employs over 1,600 construction professionals across the nation. Kent Companies is known as the “Leaders in Concrete” and is consistently ranked among the top 6 largest concrete contractors in the country by ENR Magazine.

Kent Companies helps finished floor contractors maximize project schedule and productivity by pouring floors for finished floor goods. Our team provides product pumping and finishing services for most pumpable self-leveling products.

TEAM

- 35 trained installers
- Four operation centers based in East Michigan, West Michigan, Central Ohio and the Carolinas
- Kent Companies has the ability to combine regional crews across the country to support projects – big or small
- We can place more than 20,000 square feet of flooring per day on larger scale projects with tight schedules
- OSHA 10 certified crew members

EQUIPMENT

- Kent Companies’ pumps are designed to pump a large variety of self-leveling products

SERVICES

- **Pumping:** We have the ability to pump products from several leading manufacturers
- **Finishing:** Kent Companies’ crews have vast experience pumping and finishing self-leveling floor products

CAPABILITIES

- Our team is flexible and can even work in finished buildings
- We are incredibly accommodative, and can pump on the top floors of high-rise buildings
- We’re skilled in super flat, durable floors
- We pour self-levelers at a 3/8" thickness or less, unless job requirements indicate otherwise
