

POURED FLOOR UNDERLAYMENTS

WHY CHOOSE THE KENT COMPANIES TEAM?

Kent Companies offers over 35 years of experience in underlayments applications across the Midwest and Southeast. We've installed over 100 million square feet of flooring underlayments. We offer design build assistance to help with the design and selection of poured underlayments, sound isolation systems and thermal mass for in-floor radiant heat systems.

CONTACT US:

SAFETY

- Kent Companies superintendents and foremen conduct daily job site safety reviews
- Every member of the team is fully trained in OSHA 10

PRODUCTIVITY

- Kent Companies staffs four operating divisions across the Midwest and Southeast with over 35 trained installers. Our regional presence and manpower allow for emergency or expedited scheduling
- Strategic operating centers give us the ability to service large scale projects across multiple states with efficiency
- The Kent Companies team frequently combines regional crews, which enables us to install over 20,000 square feet per day on large scale projects with tight schedules

QUALITY

- Kent Companies senior crew leads are trained and certified by national product manufacturers. We conduct quality inspections on every job by taking cube samples and sending them to qualified testing labs

CUSTOMER SERVICE
